Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Claims 1-5, 8, 15-20 and 37-40 are generic to a plurality of disclosed patentably distinct species comprising the genes shown in figures 1, 2A, 2B (excluding the P16 gene), 3A, 3B, 4A and 4B excluding cathepsin B, cyclin B1 and CD3 epsilon.
2. The claims prior to the current amendment were generic to any genes whatsoever, and the prior art of Alizadeh enabled various sets of genes for the analysis of lymphoma samples. The current claims are limited to the specific genes listed in the identified figures minus the excluded genes. These claims are now significantly different and have immense search burdens which are now imposed upon the examination.

Therefore, Applicant is required under 35 U.S.C. 121 to elect a single pair of informative genes for analysis, even though this requirement is traversed. In addition to identifying the two genes, Applicant should note in which tables these informative genes are found as well as the Genbank accession number, if any, for the two informative genes selected. If the two genes selected by Applicant are novel and unobvious, the search will be extended by the examiner to select additional genes. Further, Applicant should be aware that the selected genes must comply with the enablement requirements of 35 U.S.C. 112, first paragraph, an issue not previously significant given the enabling disclosures in the prior art for the generic claim such as Alizadeh. Finally, Applicant should note that if new prior art or new enablement rejections, necessitated by

this significant amendment, are applied following the election, that action will be made Final.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey Fredman whose telephone number is (571)272-0742. The examiner can normally be reached on 6:30-3:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gary Benzion can be reached on (571)272-0782. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
